

CAMP ACTIVITIES

MORNING

Prehistoric Era: Fossil Making	Explore the process of fossilization and learn about the fascinating science behind it as you mould and shape your fossils.
Ancient Era: Ancient Architecture	Step into the world of ancient architects and craft your own gypsum bricks! Explore ancient construction techniques to create your own unique structures.
Medieval Era: Catapults	Catapult yourself into exploring the mechanical world of simple ballistic devices, and medieval engineering!
Renaissance Era: Invention of Printing	Step into the Renaissance era and become an inventor! In this hands-on activity, Kids use blocks as stamps to create patterns and designs, exploring how printers in the Renaissance shared ideas and art.
Future Era: Solar Power Lab	Kids experiment with sunlight to see how solar energy can power simple devices or circuits.

AFTERNOON

Prehistoric Era: Dino Habitat	Explore the prehistoric world of dinosaurs as you design and build your own miniature dino habitat in the form of a terrarium.
Ancient Era: Colours of Nature	Step into the role of an ancient artist and discover how people long ago made their colours from nature and use unique techniques to make their one-of-a-kind art!
Medieval Era: Knight For A Day	Kids design and build their very own medieval helmet using cardboard and other creative materials and embark on their knightly adventures.
Renaissance Era: Art Revolution	Step back in time to the artistic revolution of the Renaissance Era! Kids will explore the techniques and materials used by the greatest artists of the era and create their very own paint from scratch.
Future Era: Future Of Transportation	Explore the future of transportation such as flying cars, electric vehicles, and self-driving vehicles while engaging them in hands-on learning with coding little robots.
